REMAINING BURIAL PLOTS AT THE HISTORIC MISSION CEMETERY

San Juan Capistrano, CA – January 15, 2010 – Mission San Juan Capistrano summons third party consultant to determine the number of full body burial plots. The outcome of that study will be shared with the community.

It is the hope of Mission San Juan Capistrano that the study will allow the Mission to mark the remaining available plots, inform the community of the space limitations, and make accommodations accordingly.

If you would like to be kept informed about changes in policies, use, or are in desire of other information pertaining to this historic cemetery, the Mission invites you to provide your full contact information in one of the following ways so that you may receive updates regarding the Mission's findings and plans:

- Email cemetery@missionsjc.com
- Visit the Mission's front gate staff, open daily 8:30AM-5:00PM
- Write a letter to: Historic Mission, 26801 Ortega Highway, SJC, CA 92675 Attention: Cemetery Offices.

Once the survey, is completed by a third party consultant, the community will also be invited to share concerns at a future meeting discussing new policies.

The Mission believes that it is important to develop solutions that will accommodate as many people possible without desecrating graves in the process.

In accommodating as many people as possible; areas of concern that need to be discussed include: role of cremain burials, required spacing between graves, and the use of archaeologists to prevent disruption to an existing grave.
