

Content Standards

Mission San Juan Capistrano is dedicated to providing students with the highest quality, standards-based field trip experience. All of our tours and education programs support the California History-Social Science Content Standards and Framework. In addition to this, this school year we have added education programs that also teach in support of the Next Generation Science Standards. Our field trip experiences are geared toward 4th grade learning, however, they can be adjusted to be appropriate for any grade level if you let our staff know when you book your field trip. To learn more about our standards-based field trips please look at the chart below:
